

Planning for School in Fall 2020

With input from families, students, staff, and state and local health authorities, school districts must design either Plan A OR Plan B for returning to school, AND Plan C if it is not safe for large groups to be together or school buildings must close.

PLAN A

Full-time in-person learning at school for all students

Preferred IF physical distancing and in-person health requirements can be met

PLAN B

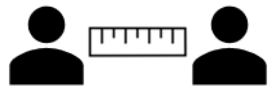

In-person learning at school, but in shifts, rotations or on a phased-in schedule, with remote learning options

Used if schools are unable to meet physical distancing or other in-person health requirements for all students

REQUIREMENTS for both Plan A and Plan B

Physical distancing when seated and as much as possible on buses

Health screenings, face coverings (masks/shields), frequent hand washing

Other Considerations for Plan A and Plan B

Drop off and pick up

Meals

Grouping Students

Cleaning and disinfecting

Ventilation

Shared materials

PLAN C

Used if it is not safe for large groups to be together or if school buildings must close

Remote learning for all students

Must be more effective than Spring 2020

Limited number of learning platforms
