What Size is a Typical PTA? The average number of members per PTA is 157.

The median number of members per PTA is 96.

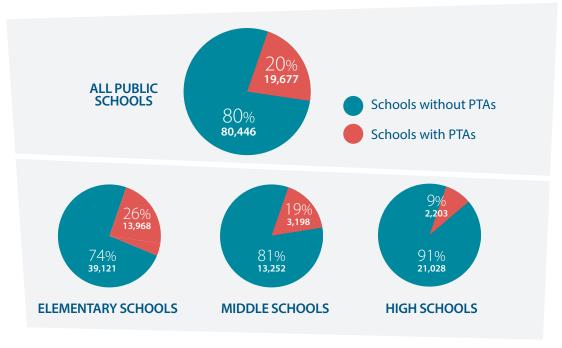

* This is the number of Full Time Equivalent teachers as reported by each school. A teacher is defined as a professional school staff member who instructs students and maintains daily student attendance records. This count totaled to the district level will not necessarily agree with the district count of teachers, as not all teachers are assigned to a specific school.

How does a PTA Affect Graduation Rates? Students who attend a school with a PTA are more likely to graduate.

	All Students	American Indian or Alaska Native	Asian or Pacific Islander	Black	Hispanic	Two or More Races	Total Students of Color	White	Children with disabilities	Economically disadvantaged
Graduation Rate at schools with a PTA	91%	63%	89%	85%	87%	73%	86%	93%	73%	86%
Graduation Rate at schools without a PTA	85%	62%	82%	75%	78%	76%	76%	88%	62%	78%

More PTA Members = Higher Graduation Rates

PTA

* Source data did not provide graduation rate in cases where the student number is too low (such that the grad rate could be used to identify individual students). The numbers only provide cases where the graduation rate is provided. Percentage shown is number of PTA members in that unit divided by the total number of students at that school (i.e. 100 members for a student body of 1,000 equals 10%).
