

Amanda's PTA journey began with a simple step of a carnival chair for her son's elementary school and led to her witnessing and participating in the immense opportunities that PTA provides for all children. Her approachability and problem-solving skills have allowed her to take on many roles within local, council, and region levels. Reaching out to PTA's to help them create a digital pivot this year, has allowed Amanda to see the impact of membership on a local level which she wants to be connected to state wide, as the State Membership Director.

Amanda has held the positions of President, Vice-President of Membership, Region 7 Service & Delivery team, Power User's group for Memberplanet, and has served on the WSPTA Membership Committee.

Membership holds a special place in Amanda's heart, as for her "Membership means opportunity. For every member we have, we are one voice stronger for the children"
