

Honorable Linda McMahon
Secretary of Education
U.S. Department of Education
400 Maryland Ave SW
Washington, DC 20202

Honorable Russell Vought
Director
Office of Management and Budget
1650 Pennsylvania Avenue NW
Washington, DC 20503

Cc: White House, U.S. Senate, U.S. House of Representatives

July 25, 2025

Dear Secretary McMahon & Director Vought,

On behalf of the National Parent Teacher Association (National PTA), the 193 PTAs listed below, and our members across the country, **we write with extreme concern for your recent decision to withhold \$6.9 billion in funding for educational programs and urge you to swiftly release this critical funding for distribution to the schools, families and children that rely upon it.**

This must include the release of the following FY25 funds that were authorized by Congress earlier this year and signed into law by President Trump:

- \$2.19 billion for state grants supporting effective instruction (Title II-A)
- \$1.38 billion for student support and academic achievement grants (Title IV-A)
- \$1.33 billion for 21st century community learning center (Title IV-B)
- \$890 million for English language acquisition grants (Title III-A)
- \$376 million for migrant education state grants (Title I-C)
- \$715 million for adult education and family literacy state grants

In addition, we implore you to restore the \$1 billion in state and local grant funding allocated for school-based mental health support and services. The Mental Health Service Professional Demonstration Grant and the School-Based Mental Health Services Grant programs are two of the few opportunities schools across the country have to address pervasive shortages of school psychologists, school counselors and school social workers in an effort to address the ongoing youth mental health crisis and ensure all children feel safe, supported and included in their school community. It is critical that the Administration swiftly release these funds to provide access to essential behavioral and mental health support and services for our children.

As the oldest and largest child advocacy association in America, we know that federal investments are critical to ensuring the educational success of all children in our country and that the long-term success of our nation depends on quality federal investments in our education system. In particular, the funds currently being withheld are essential to improving academic outcomes and student well-being across the country. For example, student support

and academic achievement grants (the Title IV-A program), is a bipartisan flexible block grant that supports investments in safe and healthy students, well-rounded education programs, and the effective use of technology in education. The latest research¹ has found that the continued withholding of this funding is already impacting families, children and schools in every community, with school districts serving a large percentage of students from low-income families being hit the hardest—losing five times the per pupil funding. In addition, school districts represented by Republican members of Congress have been disproportionately affected, with districts in California, Florida, Georgia and West Virginia accounting for half of the 100 school districts most impacted. The Title IV-A program and others outlined above are extremely important to families and schools, and withholding or delaying release of these funds forces districts to make tough decisions and undermines educational opportunities and the well-being of all children in communities across the country.

For over 128 years, our association and our members have advocated and worked to ensure all schools and families have the proper resources and support needed to help all children learn, grow and succeed. **Today, we urge you to swiftly release ALL the critical funding outlined above for distribution to the schools, families, and children that rely upon it.**

Thank you for your consideration of our request, and please feel free to contact National PTA's Director of Government Affairs, Kate Clabaugh, at kclabaugh@pta.org if you have any questions. We look forward to working with you to continue building a future where all children can reach their full potential and thrive.

Sincerely,

National PTA
